

# ROOF TOP PACKAGE UNIT

## Product introduction

Eurokool R22 Tropical Packaged Air Conditioners are designed and manufactured to meet the requirements of the severe climatic conditions and are built specifically for outdoor installations, either on ground or roof level. The R22 Tropical Packaged Air Conditioners are ideal for warehouses, large halls, schools, residences, or wherever the requirement is for a heavy duty unit with a hermetic scroll compressor.

The units are available in 5 different sizes from 3 to 25 ton nominal (10.5 to 87 kW) in 50Hz. The units are designed to operate in a wide ambient temperature range from 14°F (-10°C) to 125.6°F (52°C) and even lower if an optional head pressure control system is provided.

R22 Tropical Packaged Air Conditioners are completely assembled, internally wired, charged with R22 refrigerant at factory, tested before ship and ready for installation. All that is required on site is connecting ducting and power supply. This greatly reduces installation work and cost. They are designed for ducted systems which will enable them to be installed on rooftop or on the ground.

## Air Handling Unit

**Horizontal Type**  
5,000m<sup>3</sup>/h~40,000m<sup>3</sup>/h  
2,950CFM~23,500CFM

**Vertical Type**  
3,000m<sup>3</sup>/h~40,000m<sup>3</sup>/h  
1,750CFM~23,500CFM

**Ceiling Type**  
2,000m<sup>3</sup>/h~15,000m<sup>3</sup>/h  
1,200CFM~9,000CFM

**Modular Air Handling Unit**  
3,000m<sup>3</sup>/h~200,000m<sup>3</sup>/h  
1,750CFM~117,700CFM
